

Virtual Tabletop (VTTX) for HazMat Response

Module 2: Expanding Incident Position: Unit Leader (general)

Part A Core

This VTTX Playbook is your guidebook for progressing through the scenario. This gives you the required tasks that you need to complete based on your assigned ICS position. The Playbook will be different for each module and each role - please double check your playbook and intended training prior to starting work.

You will be asked to create any forms necessary in the performance of your position. Challenge questions are designed for you to demonstrate PQS or position knowledge where the creation of a form or product is not applicable. Please record your responses to the challenge questions on your ICS 214 Activity Log. Your exercise facilitator or ICS Coach will instruct you on how to submit your exercise materials, including any position specific deliverables, your ICS 214, Record of Training, and request for PQS signatures based on the proficiency you are able to demonstrate.

If you are short on time or are only needing specific PQS items, please discuss the appropriate tasks to complete with your ICS coach prior to starting the exercise. If you run out of time, stop wherever you are and jump to the final three tasks for DEMOB document submission.

Upon conclusion of the exercise, please take a moment to complete the Hot Wash/Exercise Evaluation (button located at the bottom of exercise website). Please identify at least two positives from your training experience and two things that can be improved. This honest feedback will enable the exercise support team to continue developing relevant training modules that provide valuable trainee experiences. Please remember, the feedback form is for evaluation of the exercise (design, materials, etc), not for an evaluation of your performance with the exercise tasks. Individual performance will be captured in your own ICS 225 and PQS completion with your designated ICS coach. *Your Verifying Officer may require completion of the Hot Wash/Exercise Evaluation as a condition of eligibility to receive PQS sign offs.

Please review the Scenario and the ICS 201 prior to starting your exercise play. Both documents are available under the Exercise Document Library of the exercise website.
